Open Educational Resource (OER)

Evening class

What is a hybrid course?

A hybrid course combines face-to-face instruction in a campus classroom and/or lab with online instruction. A significant portion of the course learning takes place online, so required classroom/lab time is reduced.

What is an OER? (Open Educational Resource)
OER = Student Savings!

Many of TBCC’s courses utilize OERs - no-cost or low-cost resources used in place of expensive textbooks.

See an OER symbol next to a course in the schedule? This means your instructor is using these resources to save you money! Don’t feel comfortable using an electronic format? Most OERs include the choice to print them out for a small fee if an electronic format is not preferred.
