The College's computer, classroom equipment, video and conferencing services, and information network is a continually growing and changing resource that supports students, faculty, staff and the outside community. These resources are vital for the fulfillment of the academic and business needs of the College community. Their use is provided as a privilege. In order to ensure a reasonable and dependable level of service, it is essential that each individual student, faculty, and staff member, must exercise responsible, ethical behavior when using these resources. Misuse by even a few individuals has the potential to disrupt College business, and, even worse, the legitimate academic and research work of faculty and students. Refer to AR B007 for more detailed information.
