

## **STUDENT IDENTITY**

ADMINISTRATIVE RULE NUMBER: D 031

LAST APPROVED: November 1, 2019

RELATED TO POLICY SERIES NUMBER:

---

### PURPOSE

All TBCC students are required to provide identification upon application and enrollment. Once identification has been provided, students will be assigned a unique student identification number and password. This unique student identifier, and password, are required during course registration. After registration, faculty verify student identification via the class roster and provide course specific enrollment keys to individual LMS courses. Certain courses (e.g. Math) utilize in person proctored exams that require identification. Additionally, all online courses have access to ProctorU electronic validation test proctoring.
